English (Intermediate)

URDU (Fluent)

Web Developer:

Craftwaveinnovations | 2024 - Present

At CraftWave Innovations, I work as a Web Developer, building responsive websites and modern user interfaces. My responsibilities include translating Figma designs into functional web pages, integrating APIs, optimizing performance, and ensuring smooth user experiences across all devices. I also collaborate with cross-functional teams and contribute to clean, scalable, and maintainable code.

Front-end developer | CraftBent Solutions | 2022 - 2023

At CraftBent Solutions, I worked as a Frontend Developer, contributing to the development of responsive websites and user-friendly interfaces. My responsibilities included translating UI/UX designs into clean, optimized code, improving site performance, and ensuring cross-platform compatibility. I also collaborated with backend teams on API integrations and supported various client projects by delivering scalable, maintainable, and visually appealing frontend solutions.

Key Responsibilities:

- Designed and developed responsive, high-performance web applications using modern front-end and back-end technologies.

SKILLS:

Frontend Languages: HTML5, CSS3, JavaScript, HUBL

Frontend Frameworks/Tools: React, Bootstrap, jQuery, Tailwind CSS, Material UI, Wordpress.

Tool: Figma (UI handoff), Adobe XD, Chrome DevTools, Postman.

Backend Languages: Node.js, Express.js, Java, SQL, Oracle, MongoDB.

Other Tools: Git, Figma, ClickUp, Google Sheet & Apps Script, VS Code, NetBeans, Vim, Atom, IntelliJ, npm, Git, Github.

Testing Tools: Jest.

CERTIFICATIONS

Programming with Javascript

- Built reusable components, optimized UI/UX, and implemented dynamic features aligned with project requirements.
- Developed secure and scalable REST APIs, integrated third-party services, and ensured smooth data flow across systems.
- Implemented database structures, performed CRUD operations, and optimized queries for fast performance.
- Automated workflows and business processes using tools like, Google Apps Script, and custom API logic.
- Integrated external platforms such as Google Sheets, Jotform, and CRM tools to support seamless data exchange and reporting.
- Collaborated closely with designers and cross-functional teams to translate ideas into fully functional, production-ready solutions
